RE: Acceptance of Closure Certification and Release from Financial Assurance for Building
14 Sludge Holding Basin, The Boeing Company, St. Louis, Missouri; EPA ID
MOD000818963

Dear Mr. Torseth:

In accordance with 40 CFR 2645.143(i), as incorporated and modified in 10 CSR
25-7.264(1), the Missouri Department of Natural Resources hereby accepts the closure
certification for The Boeing Company, Hazardous Waste Building 14 Sludge Holding Basin
located in St. Louis, Missouri.

The department's Hazardous Waste Program (HWP) Permits Section has reviewed the closure
certification for the permitted Building 14 Sludge Holding Basin which was dated
September 12, 1995. The unit was included as a regulated unit in the 1984 permit application
although its inclusion was not required by the regulations. The certification was signed by
Chia Chang, P.E., Senior Consultant at Smith Environmental Technologies Corporation, a
registered professional engineer licensed in the state of Missouri. Further investigation of the
unit was completed a part of the RCRA Facility Investigation (RFI) and all findings are
consistent with the closure results.

The site was inspected October 15, 2001, by Mr. Patrick Quinn, of the HWP Permits Section,
and no unsatisfactory features were found. A deed notice and institutional controls are to be put
in place as part of the Final Remedy under site-wide corrective action. The wastewater treatment
plant and sludge holding basin will continue to be operated by Boeing and will be retained as
SWMU #21 in the RFI.

With the acceptance of the closure certification for this unit, Boeing is released from the financial assurance requirements for closure costs for this unit, as specified in 40 CFR Part 264 Subpart H, as incorporated by 10 CSR 25-7.264(1) and modified by 10 CSR 25.265(2). Boeing may reduce its financial assurance instrument by the amount of financial assurance associated with closure costs for Building 14 Sludge Holding Basin (\$46,200). Boeing is reminded that financial assurance for closure and for third party liability must remain in place for all remaining units.

Thank you for your efforts to comply with the Missouri Hazardous Waste Law and regulations. If you have any questions regarding this matter, please contact Ms. Jacki Hicks of the department's HWP at (573) 751-3553.

Sincerely,

HAZARDOUS WASTE PROGRAM

Cindy Kemper
